

Wydler Global Bond Fund

November 28, 2025

Investment policy

The Wydler Global Bond Fund invests globally in bonds of different ratings, different maturities and different currencies, with a focus on USD, EUR and CHF. The objective is to achieve a high return for the investor by exploiting the fluctuations in the market and the risk premiums of the individual bonds. The risk profile is optimised through broad diversification and active management. In order to keep interest rate risks under control, the duration in the portfolio is deliberately kept short.
